Dr. Harish Hosalkar

ALLIANCE MEDICAL GROUP
BOARD CERTIFIED ORTHOPEDIC SURGEON

Dr. Harish Hosalkar's path to San Diego spans continents, cultures, and decades of rigorous medical training. Rooted in Mumbai, India, he entered medical school at a young age, earned his degree early, and pursued advanced training across India, Switzerland, the UK, and the US. At the University of Pennsylvania, he became the first foreign medical graduate to complete orthopedic residency, earning multiple awards along the way. His subspecialties include fracture and trauma care, joint preservation and replacement, limb-lengthening and deformity correction, neuromuscular orthopedics, bone tumors, and pediatric orthopedics.

Once settled in San Diego, Dr. Hosalkar envisioned a multidisciplinary, concierge-style practice. That vision became Alliance Medical Group, a patient-first network with multiple locations, that offers patients seamless, collaborative care. Here, individuals have access to specialties ranging from orthopedics, spine, pain-management, sports medicine, neurology, psychology, ENT, ophthalmology, plastic surgery, acupuncture, geriatrics, and more.

Today, his focus extends beyond surgery to cutting-edge orthobiologics such as platelet-rich plasma (PRP) therapy, supported by advanced diagnostics and a collaborative model that accelerates recovery and restores function. "My main goal is increasing longevity, function, and health of bones and joints," he explains. "Longevity only matters if it comes with quality of life."

His patients include athletes, executives, injury survivors, and older adults seeking to preserve independence. Beyond the clinic, Dr. Hosalkar is completing the prestigious Harvard Business School OPM 66 program, serves on several boards, mentors the next generation of physicians, and participates in global mission work. Guided by his belief that "Life is motion and motion is life," he remains dedicated to advancing care, education, and wellness worldwide.
